

Dhruv Sharma

Frontend Developer | React.js | JavaScript | Redux Toolkit | REST APIs

9650853664 | shadhruv09@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Frontend Developer with 4+ years of experience building scalable and responsive web applications using React.js, JavaScript, Redux Toolkit, HTML, CSS, and REST APIs. Experienced in Micro-Frontend architecture, reusable component development, REST API integration, state management, testing, and performance optimization.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, Redux Toolkit, Context API, React Hooks

UI & Styling: Material UI, Bootstrap, Tailwind CSS

Testing: Jest, React Testing Library

API & Architecture: REST APIs, Micro-Frontend Architecture

Database: SQL, MySQL

Data: Python, Pandas, NumPy, MS Excel, Power BI

Tools: Git, GitHub, GitLab, VS Code, Cursor, GitHub Copilot

EXPERIENCE

Tata Consultancy Services

October 2021 - Present

Client - Government E-Marketplace (GeM)

June 2024 - Present

- **Developed scalable Micro-Frontend (MFE) applications** using React.js for the Government E-Marketplace (GeM) platform, ensuring modular architecture, reusability, and high performance across multiple modules.
- Built responsive, accessible, and visually consistent user interfaces with Material UI, improving usability and delivering a modern experience across devices.
- **Integrated 10+ REST APIs** with frontend components, enabling dynamic data rendering and reducing average page load time by **~1.5 seconds**.
- Collaborated closely with Figma design teams and Business Analysts to translate design and business requirements into functional components, reducing design-to-development gaps by **~25%** and accelerating release cycles.
- **Leveraged AI-powered coding assistants** (Cursor, GitHub Copilot) to automate repetitive coding tasks and optimize implementation patterns, achieving **~30%** reduction in development effort while maintaining code quality.
- **Authored 100+ Jest unit and integration test cases** for React components, increasing test coverage to **85%+** and strengthening application reliability.
- Implemented Redux Toolkit for centralized state management across complex React.js modules, improving application scalability and maintainability.
- Contributed to the development of a shared component library, later adopted by multiple UI teams across the project.

Client - Apple Inc.

Dec 2021 – March 2024

- Designed and implemented **responsive layouts using media queries** across 15+ device breakpoints, ensuring a consistent user experience across mobile, tablet, and desktop devices.
- Utilized **Apple UI frameworks** and **AI tools** to accelerate front-end development, automate repetitive tasks, and maintain design consistency.
- Developed **reusable and modular React.js** components using Context API and Hooks, reducing code duplication.
- Participated in code reviews and documentation, improving team productivity.

PROJECTS

• **Portfolio Website** | HTML, CSS, JavaScript, React.js | [GitHub](#) | [Live Demo](#)

Developed a responsive portfolio website showcasing professional experience, projects, education, and skills.

• **Moviedux** | HTML, CSS, JavaScript, React.js | [GitHub](#) | [Live Demo](#)

Built a responsive movie discovery application with interactive browsing, search, filtering, and dynamic movie rendering.

• **Ticket Tracker** | HTML, CSS, JavaScript, React.js | [React useReducer](#) | [GitHub](#) | [Live Demo](#)

Developed a ticket management application enabling users to create, edit, and delete incident tickets using React useReducer for state management.

EDUCATION

Bachelor of Technology (EEE), Guru Gobind Singh Indraprastha University, Delhi | June 2021
